Recovery Tank

Vac Protection System

As the tank fills, the Float Ball rises until it is sucked into a sealed position, cutting off airflow to the vacuum motor.

*Drain Saver Basket is an option

Drain Savers & Deluxe Fill Options

Conveniently fill the floor scrubber fresh water tank from any standard faucet with the 60 inch retractable hose. Drain saver basket keep your Recovery tanks debris free, and simple to remove for disposal.

Onboard Charger

Charge anywhere in the facility with a plug and forget charger. LED Indicator lights shows state of charge.

WET / AGM Battery Options

Choose between a variety of battery options for optimal run and charge times based on the application and needs.

Flip Wand

3 Main Functions:

- Apply Solution
- Scrub the ground with manual scrub brush
- Powerful suction recovers water into the recovery tank.

Brushes And Pads

Depending on the floor, the right Brush or Pad can make or break the cleaning performance. Luckily there are a number of selections to ensure the best performance to match the floor type.

Squeegees

3 Material Choices:

- Gum Rubber (Low Cost)
- Urethane (Oil Resistant)
- Linatex (Abrasion Resistant)

Kodiak - Since 1986, Cleaning The World One Warehouse At A Time

The **Kodiak** brand was engineered from the ground up with heavy-duty, industrial cleaning in mind. The filthiest factory or the grimmest warehouse stands little chance against these scrubbers which are built to cruise through the toughest job. Our design intent wasn't only focused on a durable machine that can withstand the day to day hardships, but also to keep things simple for your budget. Using simple switches and common fasteners, our machines come at a low-cost point, and are easy to maintain.

RPS Corporation is a family owned business based in Racine, Wisconsin manufacturing some of the world's most reliable cleaning equipment. We strive to prove the highest value in machines and local support with a network of 425 distributors in over 42 countries.
